Experiences

**React Native Developer ·
WiPoker - Freelance - Remote** — **Mars 2024 - january 2025**

Developed Wipoker, a multiplayer mobile poker game featuring real-time gameplay, intuitive controls, and stunning graphics. Implemented various poker styles, enabling players to compete globally or with friends. Focused on delivering an authentic and engaging user experience through meticulous design and development.

**React Native Developer NEO
01 NEO · Full-time - Hybrid** — **November 2023 - Feb 2024**

Introducing a revolutionary health app, facilitating virtual consultations between doctors and patients through seamless video calls. Integrated health devices sync with the app, enabling patients to share real-time results with doctors. The app streamlines the entire process, from diagnosis to prescription, with a convenient in-app payment system for a comprehensive healthcare experience.

**Full stack Web Developer
Noun Web Services · Full-time - Remote** — **May 2023 - October 2023**

Create a user-friendly web application for managing apartment and villa rentals. Simplify booking processes and provide real-time property availability monitoring. Prioritize user experience with intuitive interfaces catering to both property owners and tenants, ensuring a smooth and efficient interaction throughout.

**Full stack Web Developer
Agenz · Full-time - Hybrid** — **January 2023 - April 2023**

upgrade AGENZ web application of online services whose mission is to bring transparency to the real estate market in Morocco

**Full stack Web Developer Freelance
Freelance - Khouribga** — **July 2022 - December 2022**

Successfully navigated diverse freelance projects for various clients, collaborating with different teams to deliver tailored solutions and meet project objectives.

**Full stack Web Developer
DropLeet · Internship - Remote** — **May 2021 - October 2021**

Create a web application that allow car rental agencies employees to manage their work (Rental contracts, booking, billing, ...)
